Scope

This Policy applies to all BRG Group entities that process Candidate Data.

Processing refers to any action that is performed on Candidate Data, whether in whole or in part by automated means, such as collecting, recording, organizing, storing, modifying, using, disclosing, or deleting such data.

Candidate Data is defined as any identifiable information about you that you or someone else provides on your behalf in the context of applying for a position with a BRG Group entity.

This Policy does not cover data rendered anonymous or where pseudonyms are used. Data is rendered anonymous if individual persons are no longer identifiable or are identifiable only with a disproportionately large expense in time, cost, or labor. The use of pseudonyms involves the replacement of names or other identifiers with substitutes, so that identification of individual persons is either impossible or at least rendered considerably more difficult. If Data rendered anonymous becomes no longer anonymous (i.e., individual persons are again identifiable), or if pseudonyms are used and the pseudonyms allow identification of individual persons, then this Policy will again apply.

Application of Local Laws

This Policy is designed to provide a uniform minimum compliant standard for every BRG Group entity with respect to its protection of Candidate Data worldwide. BRG Group recognizes that certain laws may require stricter Policy than those described in this Policy. Each BRG Group entity will handle Candidate Data in accordance with local law applicable at the place where the Candidate Data is processed.

Where applicable local law provides a lower level of protection of Candidate Data than that established by this Policy, then the requirements of the Policy shall apply.

Principles for Processing Candidate Data

BRG Group respects the privacy rights and interests of each individual. Each BRG Group entity will observe the following principles when processing Candidate Data:

- Data will be processed fairly and lawfully.
- Data will be collected for specified, legitimate purposes and not processed further in ways incompatible with those purposes.
- Data will be relevant to and not excessive for the purposes for which they are collected and used. For example, Data may be rendered anonymous when feasible and appropriate, depending on the nature of the Data and the risks associated with the intended uses.
- Data will be accurate and, where necessary, kept up-to-date.
- Reasonable steps will be taken to rectify or delete Candidate Data that is inaccurate or incomplete.
- Data will be kept only as long as it is necessary for the purposes for which it was collected and

processed.

- Data will be processed in accordance with the individual's legal rights (as described in these Policy or as provided by law).
- Appropriate technical, physical, and organizational measures will be taken to prevent unauthorized access, unlawful processing, and unauthorized or accidental loss, destruction, or damage to Data.

For example, BRG Group may collect your feedback and opinions (e.g., surveys) for business purposes, such as improving processes. You may respond to these surveys voluntarily or may elect not to respond and will not suffer reprisals for your decision. This Policy will be applicable to any further information collected including any responses to such surveys.

To the limited extent a BRG Group entity needs to collect any Special Data (such as data containing personal information about racial or ethnic origin, political opinions, religious or political beliefs, trade-union membership, health or medical records, or criminal records), such BRG Group entity will ensure that the individual is informed of such collection and processing. Where required by law, the person's explicit consent to the processing and particularly to the transfer of such data to non- BRG Group entities will be obtained. Appropriate security and protection measures (e.g., physical security devices, encryption, and access restrictions) will be provided depending on the nature of these categories of data and the risks associated with the intended uses.

Equipment and Information Security

To safeguard against unauthorized access to Candidate Data by third parties outside BRG Group, all electronic Candidate Data held by BRG Group entities are maintained on systems that are protected by secure network architectures that contain firewalls and intrusion detection devices. Each BRG Group entity limits access to internal systems that hold Candidate Data to a select group of authorized users who are given access to such systems through the use of a unique identifier and password. Access to Candidate Data is limited to and provided to individuals for the purpose of performing their job duties (e.g., a human resources manager may need access to a Candidate's contact information for the purposes of setting up an interview). Compliance with these provisions will be required of third-party administrators who may access certain Candidate Data, as described in the **Transferring Data** section.

Training

BRG Group will conduct training regarding the lawful and intended purposes of processing Candidate Data, the need to protect and keep information accurate and up-to-date, and the need to maintain the confidentiality of the Data to which employees have access. Transferring Data

Transfers to other BRG Group entities

BRG Group strives to ensure a consistent and adequate level of protection for Candidate Data that is processed and/or transferred between BRG Group entities. A transfer of Candidate Data to another BRG Group entity is considered a transfer between two different entities, which means that even in such “intra-group” cases, a data transfer shall be carried out only if applicable legal requirements are met and if:

- The transfer is based on a clear business need;
- The receiving entity provides appropriate security for the data; and
- The receiving entity ensures compliance with this Policy for the transfer and any subsequent processing

Transfers to non-BRG Group entities

At times, BRG Group may be required to transfer Candidate Data to selected external third parties that they have hired to perform certain employment-related services on their behalf. These third parties may process the data in accordance with the BRG Group’s instructions or make decisions regarding the data as part of the delivery of their services. In either instance, BRG Group will select reliable suppliers who undertake, by contract or other legally binding and permissible means, to put in place appropriate security measures to ensure an adequate level of protection. BRG Group will require external third-party suppliers to comply with these Policy or to guarantee the same levels of protection as BRG Group when handling Candidate Data. Such selected third parties will have access to Candidate Data solely for the purposes of performing the services specified in the applicable service contract. If BRG Group concludes

that a supplier is not complying with these obligations, it will promptly take appropriate actions.

BRG Group may be required to disclose certain Candidate Data to other third parties (1) as a matter of law (e.g., to tax and social security authorities); (2) to protect BRG Group's legal rights (e.g., to defend a litigation suit); or (3) in an emergency where the health or security of a Candidate is endangered (e.g., a fire).

The Data Protection Officer may be contacted by email at privacy@breville.com or privacy@sageappliances.com. The processes described in this Policy supplement any other remedies and dispute resolution processes provided by BRG Group and/or available under applicable law.

Audit Procedures

To further ensure enforcement of this Policy, BRG Group's Data Protection Officer will audit compliance of this policy from time to time to ensure compliance with this Policy. In the event the Data Protection Officer determines that there are matters that cannot be adequately handled with BRG Group's own resources, BRG Group will appoint an independent third party to conduct an investigation/audit of any procedures or issues involving Candidate or employment Data under the Policy.

Communication About the Policy

BRG Group will communicate this Policy to current and new employees by posting them on selected internal BRG Group web sites and by providing a link to the Policy, where Candidate Data are collected or processed.

Obligations Toward Data Protection Authorities

BRG Group will respond diligently and appropriately to requests from data protection authorities about this Policy or compliance with applicable data protection and privacy laws and regulations. BRG Group employees who receive such requests should contact the Data Privacy Officer. BRG Group will, upon request, provide data protection authorities with names and contact details of relevant contact persons. With regard to transfers of Candidate Data between BRG Group entities, the importing and exporting BRG Group entities will (i) co-operate with inquiries from the data protection authority responsible for the entity exporting the data, and (ii) respect its decisions, consistent with applicable law and due process rights.
